Aryan Saha

I'm a 15 year old passionate for making a change. Most of my work has been applied to the medical field (cancer) and the climate space. I have expertise in research and consulting-style ideation, and with overall project managing and creation. I have proficiency in python and a new learning in deep learning.

EXPERIENCE

Founder – Tech Lead
Uconnect Co.

3/20 – 12/20

Co-founded and worked at a company created to help high-school seniors, particularly under-served, discover future opportunities. Managed a team of 4 other developers. Created website through WordPress, with extensive PHP editing.

Co-Founder
sustainably.space

9/20 – 2/21

Co-founded and created a service to collect user demand to increase sustainable options in the marketplace and world. Conducted industry research and customer validation interviews. Largely involved in product ideation and research.

Co–Founder - Outreach + Tech
Hack4Earth

3/21 -

Part of the Outreach and Tech team for a H4E team. Devising a Machine Learning solution to be addressed to reinsurance companies and other types. Currently reaching out for mentors and professional contacts, and devising model to be used.

Projects

Consultancy Challenge – UN Women
Ethiopia Digital Inclusion

3/21

Worked in a team of 4 to figure out how to increase digital tool use by women in Ethiopia. Created a solution and competitive slide deck including financial and regional analysis. Challenge opportunity funneled through The Knowledge Society. Check it out here!
